Paving the Way for the Mediterranean Solar Plan

Menarec5
Marrakech, 15-16 May 2012

The EU funded project “Paving the Way for the MSP: Knowledge Transfer/ Capacity Building ”

El Habib El Andaloussi
Deputy Team Leader

The contents of this publication are the sole responsibility of the authors and can in no way be taken to reflect the views of the European Union

History and Framework

- **PWMSP: Renewable Energy Sources**
 - Valorise the results that have been achieved
 - Create a conducive climate and framework to the MSP
 - Contribute to a significant increase in deployment of sustainable energy systems based on solar, wind & other RES with EE & energy savings in the region,.
 - Promote results & activities that contribute to the development & implementation of the MSP
 - Establish & develop an integrated Euro–Mediterranean “Green Energy Market”
- Project Budget: 4,642,500 Euros
- Duration: 2010–2013
- Project Start 1 September 2010
- Establishment of Project Headquarters in **Cairo** in March 2011
- Project Satellite office in Rabat in August 2011
- Appointment of >50 non–key experts and LT experts.
- Outputs: **42 reports** (drafts under peer review or final Deliverables).

Project Activities

Four Vertical Tasks

- Task 1: Harmonized legislative and regulatory framework
- **Task 2: Knowledge Transfer & Capacity Building**
- Task 3: Support to the implementation of sustainable energy policies
- Task 4: Support to Investment

Two Horizontal Tasks

- Task A: Mediterranean Grid
- Task B: Support of MSP implementation

Activities under Task2

- ▶ **Sub-task 2.1: Improved intra- & inter-regional transfer of knowledge**
 - Activity 2.1.2: Road-map for cooperation
 - Activity 2.1.3: International Seminar on EuroMed cooperation in R&D
 - Activity 2.1.4: Follow-up of knowledge transfer
- ▶ **Sub-Task 2.2: Capacity-building**
 - Activity 2.2.1: Clean technology platform
 - Activity 2.2.2: Strategic Research Agenda and implementation plan
 - Activity 2.2.3: Training programmes

Sub-task 2.1: Improved intra- & inter-regional transfer of knowledge

Sub-task 2.1 Main objective

- ▶ Define a EU-MED roadmap of cooperation in the field of R&D for EE and RE, mainly solar energy
 - To reach this goal a report will be produced
 - The report will identify the areas in which each MPC would benefit by collaborating with EU universities/research centres
 - The document will be divided in 9 parts, one for each country
 - Each chapter will suggest a way to implement the collaboration for the identified technologies

Sub-task 2.1 (cont)/ Activity 2.1.1: Received questionnaires Summary of data collected

- ▶ The total number of the collected Information sheets is 34
- ▶ Summary of Data collected
- ▶ Deliverable report D2.1.1

Country	# of received questionnaire
Morocco	5
Algeria	1
Tunisia	6
Egypt	1
Israel	8
Palestine	3
Jordan	5
Lebanon	5

Paving the Way for the Mediterranean Solar Plan

ENPI 2010/248-486

Task 2.1: Improved intra- and inter-regional transfer of knowledge
Activity 2.1.1: Design of questionnaire and establishment of baseline

Report on data collected from questionnaire

Date 20/04/2012

Sub-Task 2.2: Capacity-building

- **Activity 2.2.1: Clean technology platform**
- **Activity 2.2.2: Strategic Research Agenda and implementation plan**
 - ✓ The strategic research agenda and the implementation plan will be developed on the basis of the visits foreseen in task 2.1
 - ✓ This activity aims to develop a road map for the Mediterranean partner countries based on the analysis of the existing technological European technology platforms.
- **Activity 2.2.3: Training programmes**
